

DJ WILD STUD POKER

DJ Wild Stud Poker features heads-up play against the dealer and the optional Trips Side Bet. The game is played with a standard 52-card deck, plus one Joker. The Joker and Deuces (Two's) are Wild. Best 5-card hand wins.

Make equal bets in the ante and blind circles. You may also make an optional trips bonus bet and/or two-way bad beat bonus. You will then receive 5 cards.

You can either elect to play against the dealer or fold your hand. If you play against the dealer, you will place a play wager in the amount of 2X your ante.

WINNING & LOSING

The dealer then reveals their 5-card hand and announces the hand. If your hand beats the dealer's, your play and ante bets win even money. If the dealer's hand beats yours, your ante, blind and play wagers lose. If you tie, those bets push. The blind pays if your winning hand is at least a three of a kind (see layout for odds). If you beat the dealer with less than a three-of-a-kind, the blind bet pushes.

TWO-WAY BAD BEAT

Player wins if both the player and the dealer each have three of a kind or better, and they do not tie. Players place their two-way bad-beat wagers in the marked circle. If the player's hand qualifies for payouts, the dealer pays them according to the posted pay table. If the player's hand does not qualify, the dealer takes the losing wager and moves on to the next player. If the dealer and the player have a five-card tie; then the Bad Beat Bonus bet loses because neither the dealer nor the player suffered a Bad Beat.
